Pedestrian County's Sixth Fatal

Charles C. Fretz was injured fatally about 9:20 p.m. Sunday when struck by a car driven by Frank Bateford, Jr., on Old Road about 2 1/2 miles west of Bay St. Louis.

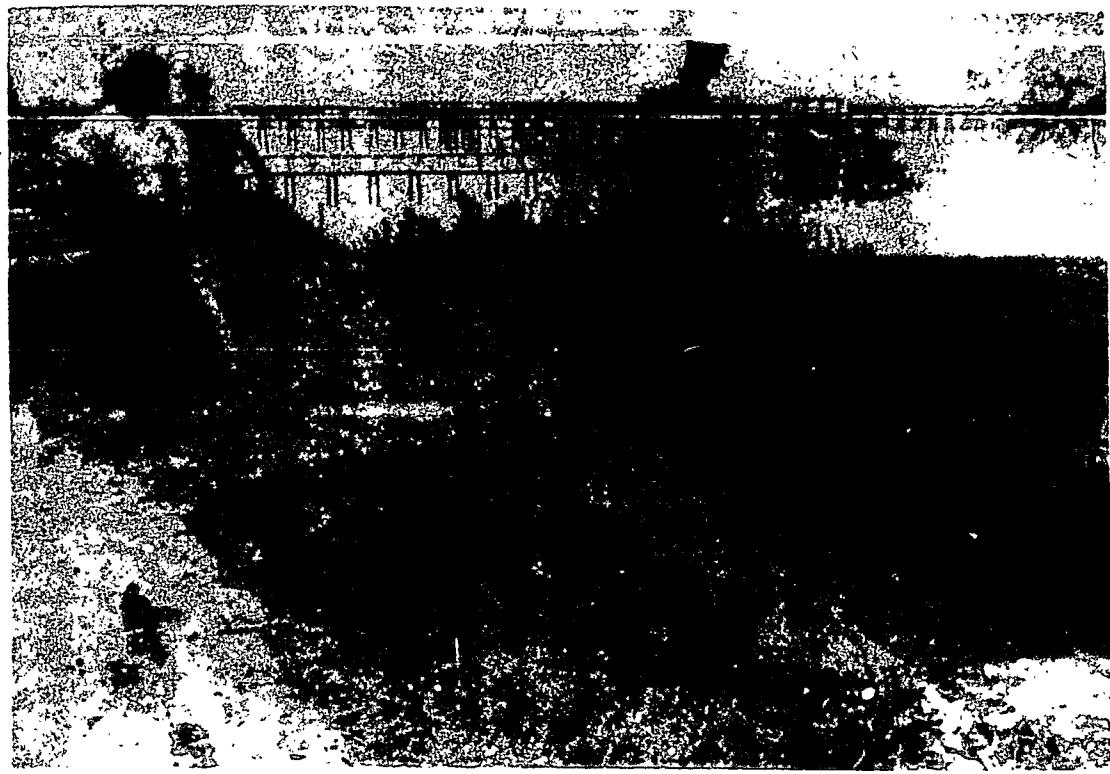

The 56-year-old circus stunt man who was associated with the "Rendezvous" show was county's sixth traffic fatality this year. He was walking on the roadside when struck by the car.

Charges of manslaughter against Bateford, a 19-year-old youth, have been filed. Hearing has been set for 4 p.m. Saturday before JP Nellus.

State patrolman H. E. Blackwell, investigating officer, recalled the car driven by Bateford, accompanied by Lamar Fretz, 18, was apparently passing another at the time of the crash. The other car has not been located.

Injury sustained by Correll, 40, was not serious. He returned to his home in the town of Bay St. Louis, Miss.

Funeral was at 10 a.m. from the Fretz-Whitfield home with interment in the Fretz Cemetery. Sister, Miss Dora Fretz, of Bay St. Louis, is his only survivor.

CAVE-IN - Monday's heavy rains apparently caused this cave-in on Beech Boulevard and Sycamore Street but by Thursday morning new drain crocks had been installed by city workers and the break was being repaired.

Chlorination Slated For City's Water

A slight change in the taste of city water may be in prospect. As a preventive measure on the recommendation of the Mississippi Department of Public Health, Commission Council Monday voted unanimously to purchase a chlorinating machine for use at the city reservoir.

Commissioner J. Cyril Glover stressed that there was no pollution of the water supply and pointed out that samples are analyzed weekly.

Council decided that beginning immediately no trash would be collected if not placed in containers of a size easily handled by collectors.

To distinguish between trash and garbage, Mayor John A. Scaffidi observed that trash includes leaves, paper, wood and similar material, while garbage is kitchen refuse.

Wednesday is collection day for trash while garbage is picked up on Monday, Tuesday, Thursday and Friday.

On a similar question Council voted on motion by Glover, seconded by Commissioner Warren Traub, to authorize the mayor to meet with the board of supervisors and Waveland Town Council to seek a cooperative sanitary land fill disposal program.

The mayor observed that he hoped that some share-the-cost plan for buying equipment, paying operators and maintenance could be worked out to the benefit of all three public bodies.

Glover was authorized to investigate the cost of a pump and of attachments for air compressors used by the gas and

water division before advertisement is made for purchasing the equipment.

Scaffidi reported the L and N Railroad began work Monday on pile driving for a culvert in the Ballard Court section with completion due sometime this week.

Lucien Raymond, Jr., surveyor, observed that after culverts are laid drainage problems in the area will be relieved further.

The mayor said that he and city attorney Dan M. Russell, Jr., have finished rough plans for the proposed subdivision regulations and plan to have completed ones ready for presentation at the next meeting.

He also has been notified by the Mississippi Agricultural and Industrial Board that application for federal financial assistance for the comprehensive planning program has been received by the Federal Housing and Home Finance Authority.

Kenny, Curet Are Suspended

William P. Kenny and Fred Curet, state highway patrolmen attached to this area, are under indefinite suspension pending further investigation effective Monday.

Kenny said he was told in Jackson at a meeting Monday a week ago the suspension resulted from his assisting persons in Hancock County in getting driver's licenses and that he had no further comment until the investigation is completed.

Remarking that the suspension came without warning and was a surprise, Kenny said he couldn't understand it at all.

On the patrol for 11 years, he was named Hancock County's Outstanding Citizen of the Year in 1956 and was presented a trophy by former Gov. J. P. Coleman.

No date was set for completion of the investigation. Order for suspension of the two officers came from the office of Col. T. B. Birdsong, Commissioner of Public Safety, in Jackson.

Parolmen R. E. Blackwell and Leon Buxton attached to the Gulfport and Lucedale areas respectively have been assigned temporarily to replace Kenny and Curet.

Afternoon ceremonies include adoration of the blessed sacrament until 4 p.m. when there will be benediction by Father Haddican. Distinguished visitors will include Mayor and Mrs. John Scaffidi.

Former Officials Check Finances

The county board of education has \$10,000 less in loans and bond issues outstanding than the initial 1960-61 audit of its books showed because a bond issue for that amount for the Logtown School was never used.

That miscalculation in the audit was verified, as trustees had suspected it would be, when A. C. Mitchell, former clerk of courts, and E. E. Breland, former superintendent of education, met with the board Saturday morning to go over in detail the controversy of several months standing over finances.

Breland and Mitchell held that the county school system had \$34,500 outstanding but not due in transportation notes and loans through the board of supervisors in 1960.

With Best 2 Trustees Alton D. Kellar checking the figures closely, Breland figured the board has \$21,585 due now or by the end of the year but the board said frankly it did not see where the money would come from to pay on the principal and interest too.

Mitchell recalled that the \$10,000 of the Logtown building fund was absorbed by the county school bond fund when the county-wide system was created. A bond issue for the Logtown work had been approved but money raised through the general county levy and combination of building funds made it unnecessary to float the issue, a fact which the books failed to record, he explained.

Charles B. Murphy, president of the board, noted that with the \$12,000 loan from the supervisors last fall for new buses the amount owed now totals \$46,000.

Mrs. Elus Depreo, bookkeeper for the present superintendent, K. G. McCarty, said nothing has been paid on the notes since he took office, expressing concern about the tight state of finances.

Breland recalled the system's monetary difficulties during his administration. He noted that a 22 mill levy applied to schools in 1957 and resulted in a surplus so debts could be met easily after which the supervisors cut the millage to 20 and the system ran \$1,500 short in meeting obligations. The schools succeeded in getting a one mill hike the next year but still were in the position

Frosty Inn Operations Sustained

Frosty Inn can continue operating as it now does under a decision recently handed down by U. S. District Judge Sidney C. Mize of the Southern District of Mississippi in the case of Frostop Products, Inc., against Sun-Glo Packers, Inc. and others.

Judge Mize held that a patent issued to Frostop was incorrectly granted and furthermore that the defendants had not infringed on the patent. He also ruled that there was no infringement by defendants of plaintiff's trademark, Frostop. The patent was for a building design usually used by plaintiff or those holding a franchise from it.

Dan M. Russell, Jr., Bay St. Louis, was attorney for defendant.

Retarded Child Unit Planned For County

Plans to form the Hancock County Assn. for Retarded Children were made at a meeting last Thursday in County Superintendent of Education Kenneth McCarty's office.

James Kizaire of the Gulfport association and Joe Long, Harrison County social worker, were present to assist the local group.

Organizations here will be contacted to have representatives present at the next meeting set for 7:30 p.m. Thursday, June 8, at the superintendent's office to explain purposes of the planned project.

If enough interest is shown, officers and nine directors will be elected at the July meeting when by-laws also will be adopted.

Present were Mrs. Nori Haas, county welfare agent, At. i. Gerald Kennedy, Jr., Culbert Lee, Doc Thigpen, Leo Rouse, Mayor John Scaffidi, Mrs. Elus Depreo and McCarty.

Mrs. Elus Depreo, secretary to County Superintendent of Education Kenneth McCarty, and Mrs. Elizabeth Garriga, secretary to Superintendent of the Municipal Separate School District J. D. Mayor Outlines Program Address to Rotarians

Mayor John A. Scaffidi outlined some of the plans for the four years of the recently organized commission council Rotary's luncheon Tuesday.

Items such as the comprehensive planning program, on which federal aid is awaited, and subdivision regulations, which Scaffidi hopes may be passed within a month or so, will follow the way.

On the program, according to the mayor is sanitary fill system of garbage disposal, which he hopes to work with the Town of Waveland and county board of supervisors, and a modern water supply system.

The water system, he said, is needed both to assure adequate water supply for the future and for better protection. Better fire protection, he pointed out, would give Bay a lower fire insurance rate, thus saving property owners considerable amount.

Additional street improvements, including drainage, is planned, he said, while already plans

for some sub-surface drainage have been made. By use of the city-owned facilities for making culverts, which the mayor estimates saves more than 50 percent of the cost of these items, he expects that before the end of their term extensive sub-surface drainage can be accomplished.

Marine Body's Shell Contract Right Upheld

Mississippi Marine Conservation Commission's authority to sell dead reef shells was upheld last Friday by Chancellor William G. Hayes. The question arose in a suit against the commission by W. L. After Habeas Corpus Hearing Set \$5,000 Bond for Seay

Delbert Seay, who last week was bound over to the September grand jury without bail on a charge of rape, was ordered placed under \$5,000 bond after a habeas corpus hearing today before Circuit Judge Leslie B. Grant at Pascagoula, Sheriff Gerald Price, said this afternoon.

Deputy Gerald Price, Jr., said Seay had asked to make bond but Best 5 Justice of the Peace Rebus Rhodes, after a hearing May 8 had ordered him bound over without bond on charges of rape and assault of a young woman April 26.

Seay was taken to Pascagoula where Judge Grant is conducting a term of court this morning by Sheriff Price and Chief of Detectives Lander Necaise for the hearing and returned to the county jail early this afternoon.

In other crime, Albert Andrews, Negro suspect in the Jan. 25 Winn-Dixie robbery, was brought to the county jail from New Orleans Monday by Sheriff Price, Necaise and Deputy Pete Noto after being released to Price following extradition proceedings.

Judge Rhodes said today he will give a hearing Saturday if all necessary witnesses could be summoned. Andrews was picked up by New Orleans authorities and was said to have been identified by fingerprints taken by Sheriff Price.

though they implied there were none. When the paving company officials left, council discussed at length with town attorney Dan M. Russell, Jr., for his engineering study of the streets and what action it should take while Haas gave his opinion on certain engineering problems and costs. No decision was reached but the discussion indicated council would not accept the offer in compromise.

Tuesday night, after all the oldsmen had spent about two late afternoon hours inspecting streets where improvements are needed, council drew up a list of what it would like to accomplish currently. These improvements, if made, will be financed by a new bond issue which council believes can be made without increasing millage. At Thursday's meeting figures produced by town clerk C.O. Du-

Williams, Mollere Drive, Waveland, Tennessee Gas Co. supervisor, Price said three skin divers, including Richard Holmes of Bay St. Louis, failed Monday in an attempt to recover a rifle from Bayou St. John in New Orleans. One of the boys had admitted throwing the firearm into the bayou. However, Noto returned with other articles found in the juveniles' possession including a shotgun, telescopic sight from a rifle and some fishing knives. The articles were found in one of the boys' car during a routine check

Sellers Sale Sought Again

Another effort to dispose of the vacated Sellers School property was authorized by the county board of education Saturday when it called for bids on the entire tract to be submitted at its June 5 session.

Trustee S. P. Powell moved to ask bids after Alton D. Kellar of Best 2 said he was positive the board would get more money on this offering than it has on several past tries. The entire tract is to go, the reservation on the teachers' home being rescinded, but one half of the mineral rights are to be retained.

The board directed Superintendent K. G. McCarty to place the legal advertisement for the sale in the Sea Coast Echo and a display advertisement in the Hancock County Eagle.

John Asher was the lone bidder on surplus used bus bodies and the sale to him was approved on Kellar's motion. Assorted iron at the school bus garage also was bid on but Powell moved to hold

that. Vote in both instances was unanimous. Asher's bid on the four bodies totaled \$126.20.

John Ladner, treasurer of the Hancock North Central Parent-Teacher Assn., who complained about operation of county owned buses at the May 1 session, appeared again with a report on his check of arrival times at the school and called on the board to move ahead with erection of a bus garage at the school.

"The major problem is in the little things," he declared, saying the state education officials in Jackson had told him all the board had to do was to apply for a loan to build the garage and they could have it ready by September.

"It's not only the question of getting the loan but of making the repayment on it," Attorney Walker J. Phillips countered. He assured Ladner that the board wanted to follow state recommendations

Tuesday night's meetings. Tuesday was devoted to new construction to be financed by bonds while on Thursday most of the time was spent on the old controversy with Gulf Paving Co. over streets constructed in 1958.

The paving firm authorized payment by the town out of funds withheld from it of the \$390 fee owed J. Norton Haas, Jr., for his engineering study of the work. Beyond that little was accomplished toward settlement of this dispute in which the town, supported by Haas' study, claims the paving was not done properly by the company and has withheld payment of about \$3,500 from the contract price.

While specifically not admitting any liability, the company did offer to repair certain streets with hot mix and a sealing coat as a compromise in the dispute.

An Urgent Need

In a release from the Mississippi Anna. for Mental Health, Dr. Floyd Jack Moore, head of psychiatry at University Medical Center, pointed out that the patient population in mental hospitals in Mississippi increased during the last five years at a time the national group showed a decline.

The doctor listed three main reasons for this poor showing: shortage of adequate mental health personnel and of salaries for them; lack of preventive facilities to stop emotional illness before it gets started; and lack of money to spend on a patient notwithstanding that other states have shown that with more money spent on a patient per day less money is spent per patient over a period of time. Mississippi ranks 49th among the states in this aspect, spending \$2.38 per day for mental patients.

Merely an increase in the funds available for this purpose will not provide a solution, however, because of shortage of facilities and of adequately trained personnel, but gradually increased funds, including increased salaries, should make a start.

When one considers that daily more hospital patients are of the mental and emotional illness type than from all other causes combined, the seriousness of the problem is apparent. May, as mental health month, in when the Mississippi Anna. for Mental Health concentrates on its program of education. Hancock Countians should support it through membership and otherwise.

Along with individuals and other large and small corporations United States Steel Corp. annually gives financial assistance to our colleges and universities through its foundation. This year six Mississippi colleges and the school of medicine at the University of Mississippi were among the recipients. These private donors attach no strings to their gifts. Wonder if the same could be said of Uncle Sam in his proposed assistance to our public schools.

Recently overheard: "With all the trouble in Laos, in Cuba, in Congo, in Algeria and now in Korea, wonder if Vice-President Nixon doesn't think he really won."

A major weakness of the Republican Party in the South has been its almost total lack of candidates in local elections. This year Pascagoula and Ocean Springs have Republican candidates for municipal offices. Similar action generally might make the Republican party a political force in Southern states.

No Such Thing As "Forebesider"

Sorry, folks... but there "ain't no such animal" as a "Forebesider". We wish there were and that we had a dozen of them from the number of folks that apparently want to buy one, whether they need it or not.

We at the Democrat office claim that you can sell anything with a Democrat classified ad because whatever you have, there is someone who wants it.

Recently, however, we were challenged by a fellow newspaper man from another state who said his paper could even sell an item that didn't exist. We countered that Democrat classified ads can sell anything that any other paper can sell and you readers have proved us right.

This is the ad that caused so much talk, so much research and literally dozens of phone calls.

"MUST SELL because leaving town. Brand new Forebesider with built-in Hemingway. Can be used left or right handed. Cost over \$250. Need money so badly will sell for only \$25 cash and deliver to your home. Write box MMM, care The Democrat."

No sooner had the ad appeared than the phone calls started. People who had read the ad wanted to know just what a "Forebesider" is? ... a place of farm equipment? A sports car? A miniature? One fellow said he knew it was a piano, because they had built-in Hemingways and you could play them either with your left or right hand.

Several said they might be interested in buying one since it was such a "must sell" item. One person called and said "Deliver it to my house. I don't know what it is, I'll take it."

The truth is, at the time all who called, we don't know what a "Forebesider" is either.

There is no such thing, we have learned for sure that "Forebesiders" classified ads would sell a lot of them.

The Echo has sold a "Forebesider" and the Classifieds have sold almost everything else.

Problems Weightier Than Ours

We here in the South Delta do have our problems. And weighty ones at that. However, we find it helps to pause occasionally and reflect that over the world there are humans with problems of their own that seem weightier to them than ours could ever be.

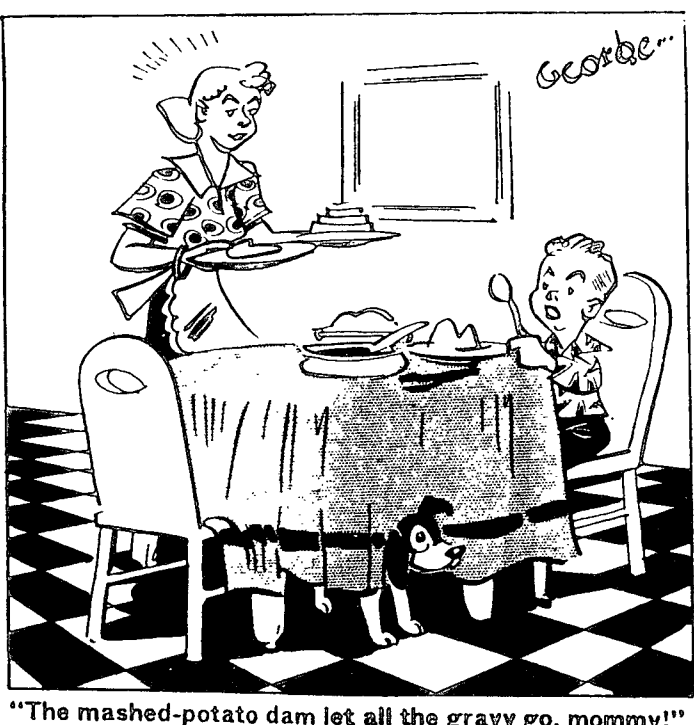

Observe, for example, the following excerpt from a story appearing in Il Borghese in Milan, Italy:

"Before agreeing to grant a permit for a Ghanaian dance group to perform in Sofia (Bulgaria), the Communist Minister for Public Entertainment wrote an indignant letter to his Ghanaian counterpart. As is commonly known, female Negro dancers appear on the stage in what we may call the national costume: naked from the waist up.

"... in Bulgaria... the Communist seemed determined to safeguard public morality. The Minister wrote Accra that the women dancers would have to cover themselves 'to conform with Bulgarian custom.' From Ghana the Negro Minister replied courteously that he was disposed to have his compatriots wear brassieres if the Bulgarian folk dance group going to Ghana in a few months on an exchange visit would present its women with torso naked 'to conform with the customs of Ghana.'"

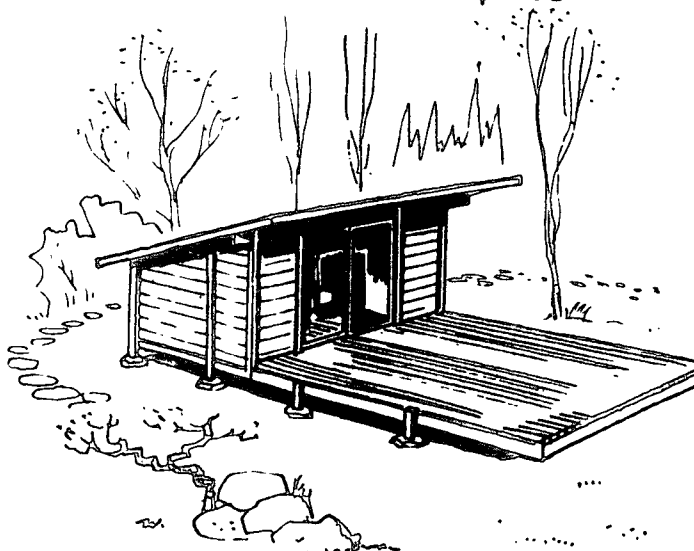

"At this point the case was closed, and the young Negro women were permitted to dance in Ghanaian undress for the comrades of Sofia." DEER CREEK PILOT

County Agent Notes

By O. O. Swords

SUDAN OR MILL ET
You dairymen, especially, should make an early planting of Sudan or millet right away. Generally grazing is ready within around 30 days after planting. At planting time apply 60 to 75 pounds per acre of nitrogen so the grass will come up and grow fast.

Plan on one-third acre of millet or Sudan per cow and make several plantings three weeks or so apart.

Many dairymen like millet better than Sudan as it does not rust as badly and will withstand more drought. Many make the first planting Sudan and the following plantings millet.

Do not plant Sudan and millet in the same field nor mix the seed of the two grasses. Cows will eat the Sudan first and leave the millet, if they have a choice.

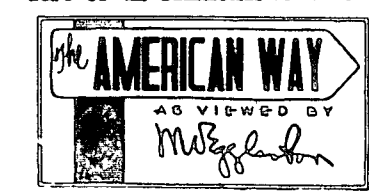

ORCHARD NOTES
Do not forget the spraying program for your peaches, plums, bunch grapes and apples. Follow directions in the Mississippi Spray Calendar.

Keep the orchard clean and cultivated all during the growing season. Disk shallow to control grass and weeds. This will conserve moisture and plant food. This will help increase size of fruit, total yields and quality of the fruit.

TIMBER MANAGEMENT
This is a busy season, but farm woodlands need attention as well as row crops. The most timely forestry practice right now is timber stand improvement. This means getting rid of cull trees and brush, giving more growing room to desirable species of trees.

Your county agent can give you specific instructions for weeding your woodland.

MORE DAIRY PROFITS
You can increase the size and productivity of your dairy operation without adding an additional acre or an additional cow. Do it

UPTURN IN STEEL

It's a revival of the old question: "Which came first, the chicken or the egg?"

The steel business is on the upswing. Some of the experts attribute the upward movement of steel production to brightening spots in the over-all business picture and especially to the increasing tempo of construction activity. Other experts say that the increased activity in steel production is responsible for acceleration of manufacturing and business.

But, we'll let the experts disagree as to which is the "chicken or the egg." The thing that matters—is really of paramount importance—is that the over-all economy is on the way up.

And if you care to have some statistics regarding the steel industry, here are a few:

Steel output inched up imperceptibly each week in January and February of this year.

At the start of March, steel production was 16 percent higher than in early January.

In late March steel production hit a 9-month high.

The steel companies have planned to invest \$1.2 billion for new equipment and construction during 1961. A considerable portion of this will go into payrolls across the nation.

Apostles of doom, who almost succeeded in talking a recession into a depression, please take note. Uncle Sam wasn't quite as sick as they had tried so hard to lead us to believe.

simply by adding silage to your feed program.

An acre of corn is worth 40 per cent more as total feed in silage than it is when harvested and put in the crib.

Do a better job of feeding. This will give you more and more milk from the same number of cows.

The seventh grader at North Central School was accidentally shot to death while riding a tractor near his home about 5 p.m. May 6.

Mrs. Lamar Breland who was berry picking near Catahoula Creek, told Pearl River Coroner Weston Lott that she had seen the boy riding the tractor apparently home from a fishing trip. She heard a shot shortly after and assumed he had shot a squirrel.

The coroner reported that the 12 gauge shotgun probably fell to the ground and discharged striking the boy in the chest.

Powell observed that P-TA might work to that end in requesting the supervisors to up the levy.

President C. B. Murphy remarked he did not believe covering a garage at North Central was the final solution. "We need money to spend for new buses and get rid of some of the worn out old ones," he declared.

Soil Conservation Work Report Made

"All agricultural agencies stand ready to assist you -- it is your duty to call upon them for assistance," said Hugh Sanford, county soil conservationist.

He reported seven new district cooperators were accepted by the district conservation department from Jan. 1 to May 1 which includes 699 acres that have been planned with conservation measures to be applied as the farmer becomes able to do so.

Five farms have been replanted with 880 acres under better conservation. Three farm plans have been cancelled with 217 acres. These were cancelled because the landowner died or sold the farm, he said.

Other activities of the district include planting 30 acres of Bahia grass, 97 acres of proper pasture use, 25 acres of contour farming, 349 acres of cover crops planted, 379 acres of crop residue utilized, 1 acre of crop rotation, five miles terraces surveyed and 24 acres of pine trees planted. In addition, 102 farms were visited which have conservation plans, Sanford reported.

He said it is the wish of the department to visit at least 75 per cent of all cooperators before the end of the year to keep farmers and ranchers informed on latest planning procedures and farming methods.

Vespers Speaker Urges Wise Choice

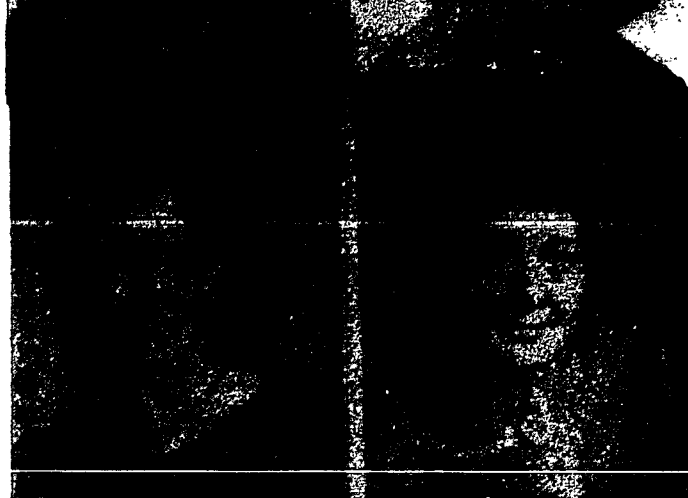

The finality of a choice once made and therefore the importance of choosing wisely, with the right motive was the theme of Rev. Vernon Dammann, M.S.S.T., in his baccalaureate address to the students of Hancock North Central High School Sunday.

Rev. Dammann, assistant pastor of the Church of the Annunciation, reminded the students that more and more their choices were their own and while some choices may be minor, "your choice may be one of life and death—even of eternal life and destiny."

Addressing the graduates that were to enter the world of work, he said that they should make their choices in the light of their faith.

Rev. J. E. Moore, pastor of Lee's Chapel No. 2, delivered the invocation commencing the ceremony.

Teen Times... (Cont. from Page 3-B.)

IN PICAYUNE SYSTEM—Hancock County students enrolled in the Picayune Municipal Separate School District who will be graduated this spring are, from left, top row: Ann Lee, Patricia Ladner; second row: Mrs. Harvey Wheat, Melba Fleming, and bottom, Carmen Carbone.

Sympathy is extended to Henry Develle on the loss of a tooth—it was removed by a pellet from a BB gun.

Polly Peers At Waveland

The editor of a small town weekly was asked by a big city reporter the reason for his extensive circulation when everyone already knew what everybody in town had done that week. "They buy the paper," the editor of the weekly replied, "because they want to see which ones got caught"—which might just be the reason at least some subscribers read this column!

Fishing News

Speaking of getting caught, we'll begin with fishing news. They're still angling successfully off the sea wall. Some of our better fishermen report small catches, Comdie Herlitz insists he's lost his touch, Sidney Bourgeois arose at 4 a.m. last Thursday but only brought one trout home. However brother Fred has been more fortunate as have Eddie Fayard and Clem Penrose. The Tennessee Gas boys went out Saturday and returned with a deep-freeze load and the Long always catches fish—so it would be more like news if he didn't.

Brewster Mollere finally broke down and baked the 3 1/2 pound beauty he'd been saving to display to dubious friends—he baked and stuffed two large trout to be exact and they were delicious—really done with the gourmet touch—Norman Hall says someone's getting his flounders—he cleaned one so small the other night that he chopped off a bit of his finger in the process.

Jack Seuzeneau reports picking up a shark on a fly line last week—forgot to ask what he planned to do with it!

Congratulations, if a bit belatedly, to Bobbie and Marie Trelles who celebrated their wedding anniversary last Saturday night.

About Mother's Day

All local churches were filled for special Mother's Day services—Many family dinners were held all over town and just about everyone who was able to spend the day at home with Ma, did just that.

Lois and Pat Glass and family remained in New Orleans and Lois' parents, Mr. and Mrs. Fred Henry dined with them. The whole clan gathered at Lotte and Mayor Garfield Ladner's at least some time during the day—Myrtle and Wesley even brought little Gina Ann out for her first public appearance that afternoon. To simplify matters, Mamma G. (Mrs. Max A. Giamelloni) came from Baton Rouge to spend the weekend with son Max, Mamie and the children. Gerri Blanchard's mother and father, Mr. and Mrs. Doyle Spell drove to Waveland from Vidalia and were joined by son Bubba and wife, Margie for Sunday dinner at the Blanchards. Linda and Tommy Kidd and little Tommy of course spent the whole week before the big day here and spent the day with both Mammies, Margie Auderer and Lorraine Kidd. Carmen Mitchell's daughter, Maureen was also at home as her Naval officer husband is on special duty. The college students arrived home also for the occasion. Freddie Bourgeois, Pete Peterson, Gaynell Lagasse and Jimmy Shipley all showed up with gifts for their respective mothers, Claire, Beulah, Phyl and Ann.

J. F. Auderer will graduate from Springhill in Mobile early next month—he'll follow in George Ferry's footsteps and proceed to Metuchon, N. J. Honeymooners Mr. and Mrs. Archie Steele of Jackson, were weekend guests of the Seuzeneaus, Doris and Jack. Incidentally Jack is in line for Congratulations, he received a very nice promotion at Ingalls in Pascagoula—Jack took wife Doris on her first plane ride to Free Mason Island last Saturday—Little Doris Davis also flew to Free Mason last Wednesday with her pappie, Bert—taking advantage of the school holiday, they spent the night on the island, returning Thursday. She spent most of her time fishing and brought back enough for a fish fry.

Dot and Merlin Markel were among those attending the Sidelines banquet at St. Stanislaus Saturday night.

More congratulations are in order—Beverly Miller and Mickey Graham were wed last Friday at Our Lady of the Gulf—a reception was held on Sunday at the home of the bride's parents, Mr. and Mrs. Arthur Miller. Mrs. Miller is the former Hazel Bourgeois.

Mayfields Are Busy

Dot Mayfield has been buzzing around preparing for a visit from her mother, Mrs. G. C. Yancey from Tuskegee, Ala., who arrived on the Crescent Tuesday and the st. Mayfields who drove from New Albany, Ala., Thursday—they all came to attend Jimmy's graduation—Dot also has another reason to celebrate—her brother, Dr. Tom Yancey, called last Wednesday to announce that his second child and first son was born Tuesday night weighing 7 lbs. 2 oz. Dot was so elated over the tidings she neglected to ask the child's name! He's been threatening to burden the little tyke with either Ezekiel or Ebenezer—but we're sure he was only kidding.

Molly Casey is once more the recipient of the Lakeshore Garden of the Month award—the club's May garden tour will begin at the home of Mrs. L. Richmond in Clermont Harbor. After the tour the members will return to Rose's for refreshments.

If you've missed seeing Elaine Davis around and about, it's because she's been spending much of her time in the Crescent City renovating her apartments there—Doris Seuzeneau and Grace Bordages accompanied her Tuesday to assist in spreading fresh paint around.

As usual everyone thoroughly enjoyed the luncheon at the parish hall on Wednesday—delicious ham, candied yams, green salad, hot rolls and cupcakes were served—some of those attending were Ora May Herlitz, Claire Bourgeois, Nona Zimmerman, Thelma Landry, Libby Perry, Gerri Blanchard, Grace Bordages, Mrs. Henry Stiller, Bebe Bordages, Rose Richard, etc. Cards and games were played after lunch.

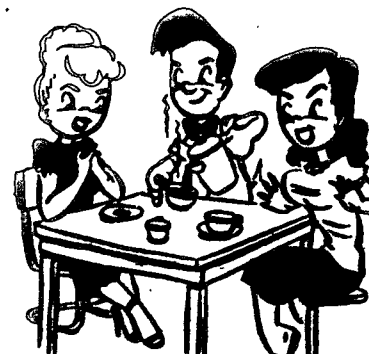

Benefit Sales

Two benefit sales were held on Coleman Avenue Saturday—the women of the Waveland Power Coop. (Cont. from Page 4-B.)

W. Houffie, 728 Navarre St., H. R. Gahrie, 728-32 Camp St., Claude L. Williams, 858 Camp St., all of New Orleans; L. M. Arnett, 813 Avenue C. Orvel Danaway, 523 Avenue B. Both of Bogalusa; and Richard C. Daniels, 604 Henry Landry Ave., Metairie.
